The Peddler 1995

The Yearbook of Worcester Polytechnic Institute

Memories

The 1995 Peddler is based on the memories of the class of 1995. Worcester Polytechnic Institute has been the home of this class for the past four years. Every graduating student has been a part of numerous life-shaping events that have left each one with memories that will be cherished for the rest of their life. It is the intention of this yearbook to put as many of those memories onto paper.

Although a yearbook cannot actually hold the emotion of a memory, perhaps when it is pulled down from the shelf and opened it will start the emotional tide flowing. The past four years will come rushing back and you will be drawn into the world of Worcester Polytechnic Institute once again. Hopefully this yearbook will be the gateway to the world that the class of 1995 is leaving behind this year.

The 1995 Peddler staff would like to wish good luck to the Class of 1995 in all your future endeavors!

Hold on to your memories!

-Arsene Houssaye

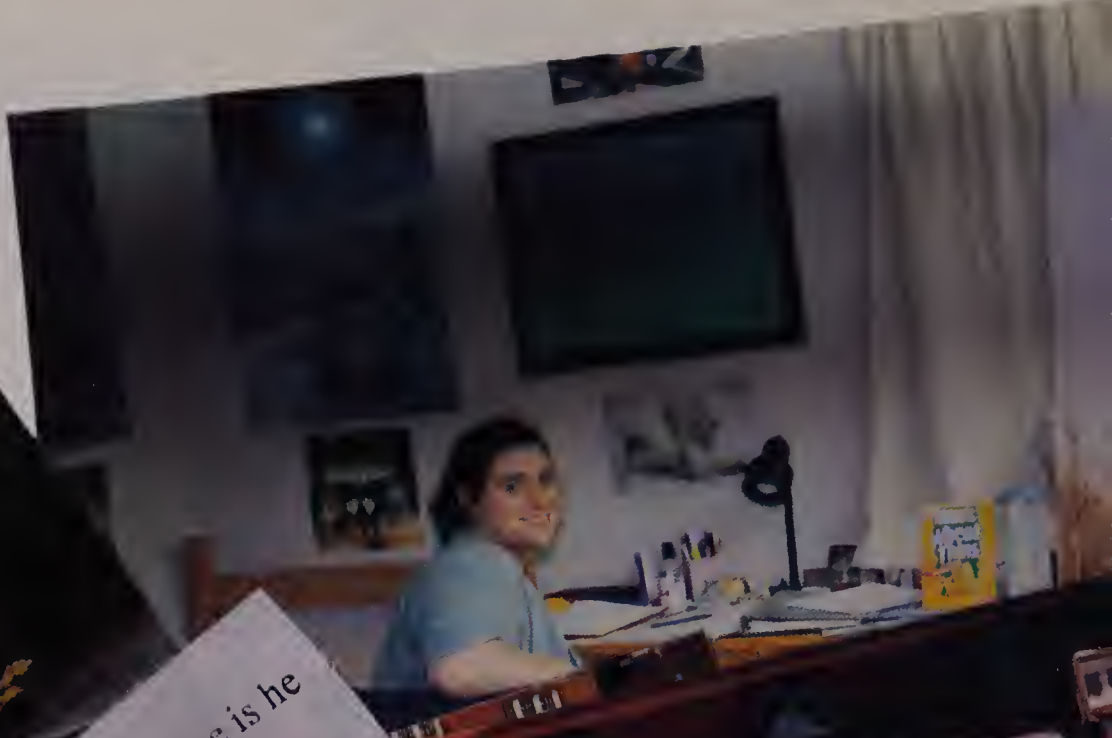

"Memory is the personal journalism of the soul."
-Richard Severo

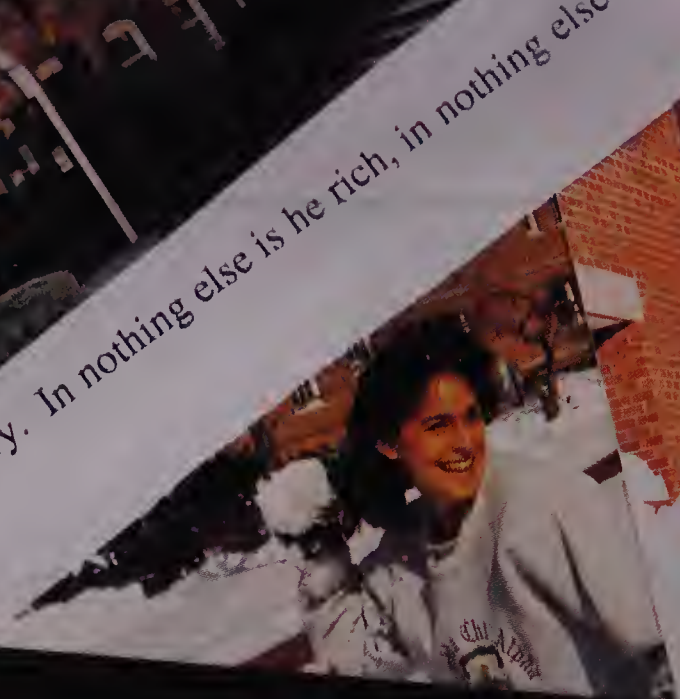

"As a perfume doth remain
In the folds where it hath lain
So the thought of you, remaining
Deeply folded in my brain,
Will not leave me: all things leave me:
You remain."

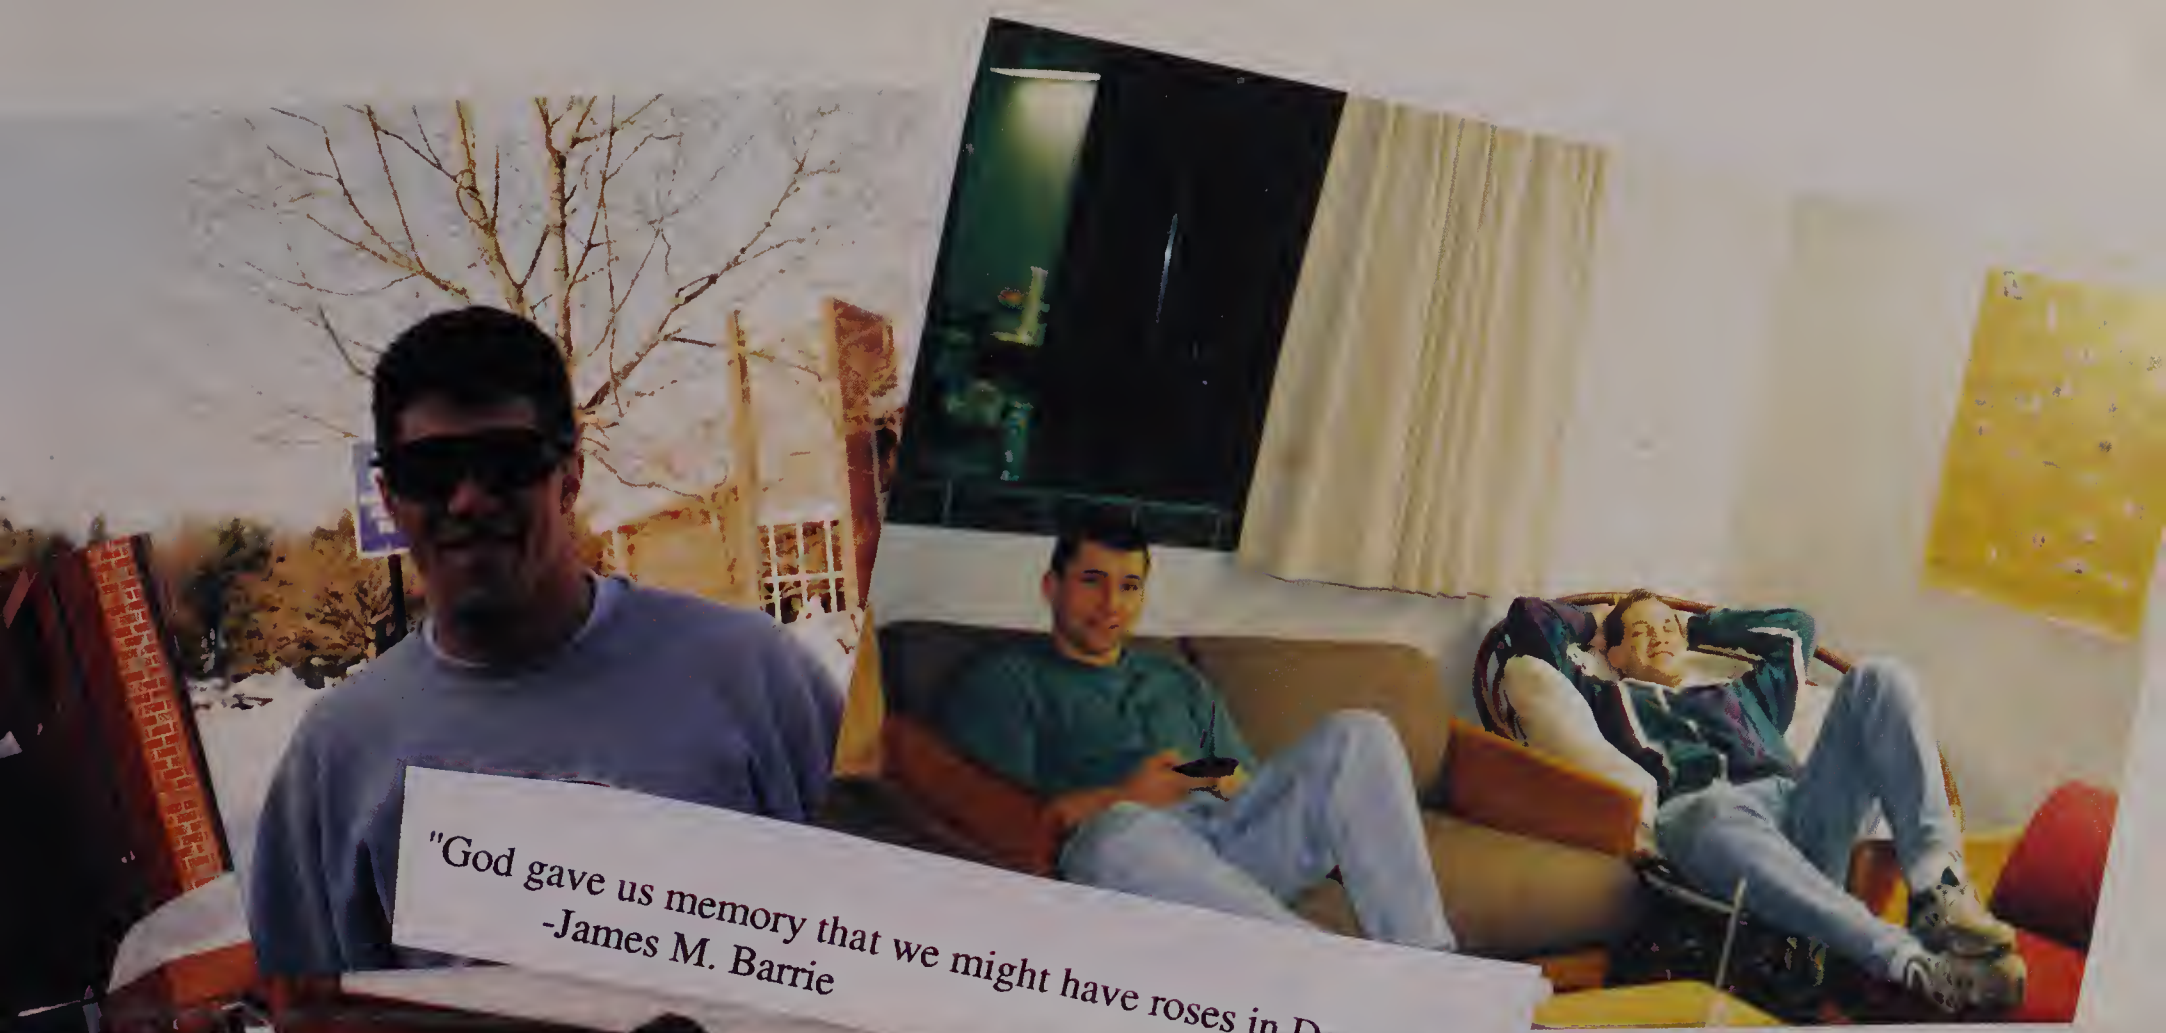

-Arthur Symons

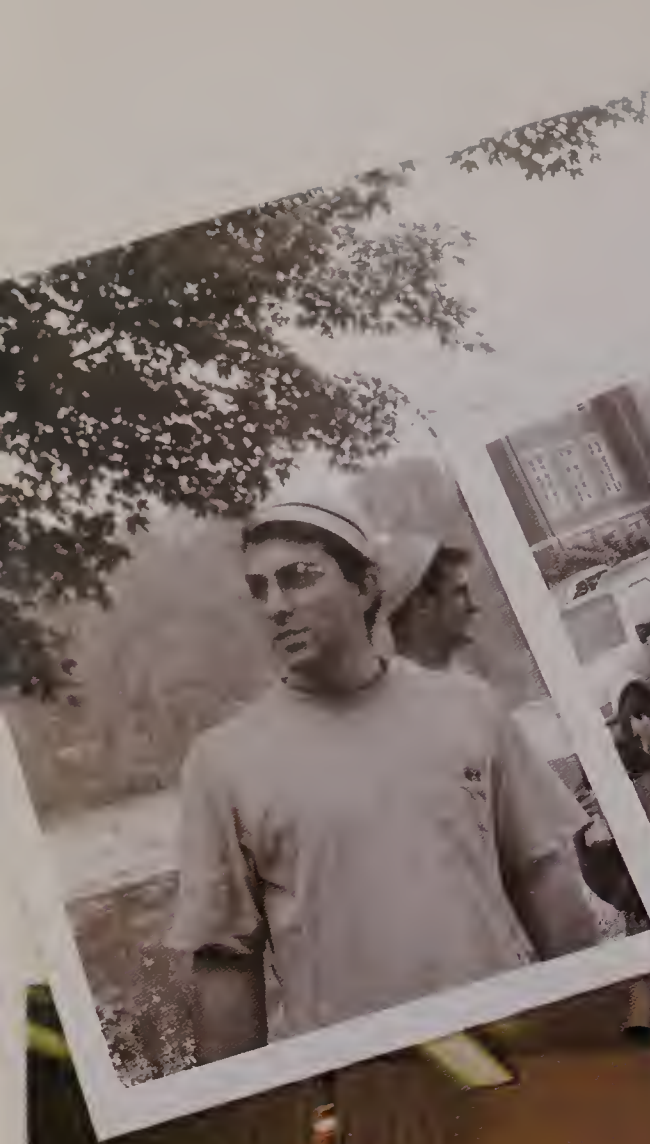

"A man's real possession is his memory. In nothing else is he rich, in nothing else is he poor."
-Alexander Smith

"God gave us memory that we might have roses in December"
-James M. Barrie

"We do not remember the days, we remember the moments."

-Longfellow

"The nice thing about having memories is that you can choose."
-William Trevor

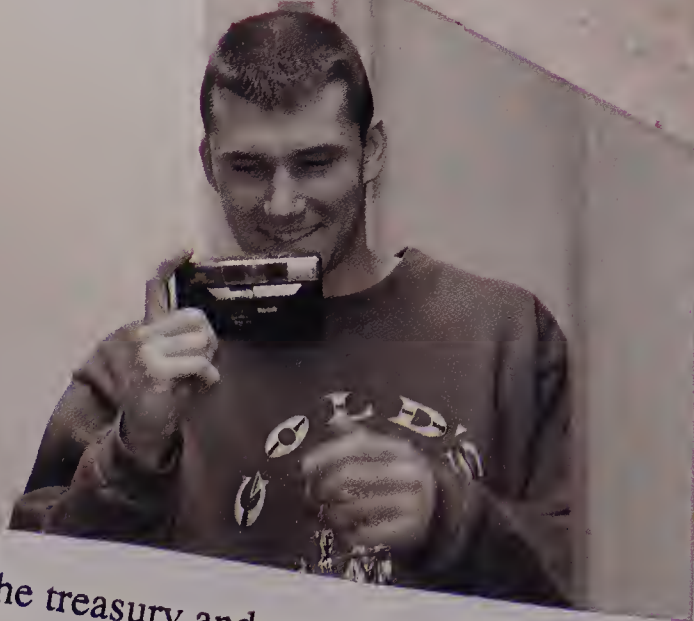

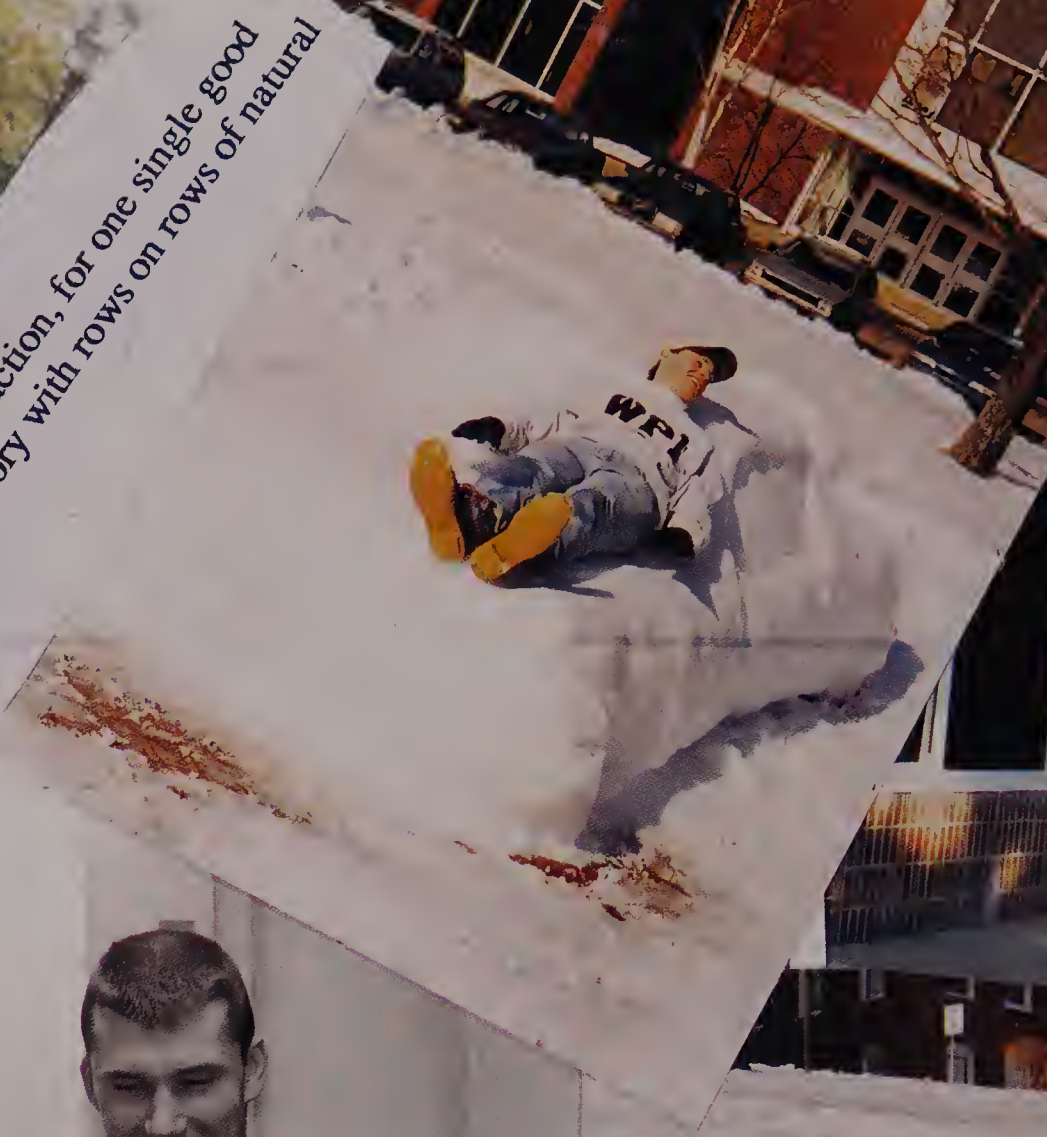

"Left behind as a memory for us."
-Statius

"Pass on, let us pass, all is passing,
And I will look back many time;
The sound of hunting horns, when it dies
On the wind, is like our memories."
-Guillaume Apollinaire

"A teacher who can arouse a feeling for one single good action, for one single good poem, accomplishes more than he who fills our memory with rows on rows of natural objects, classified with name and form."
 -Johann Wolfgang von Goethe

"Memory is the treasury and guardian of all things." ("Memoria est thesaurus omnium rerum e custos")
 -Cicero

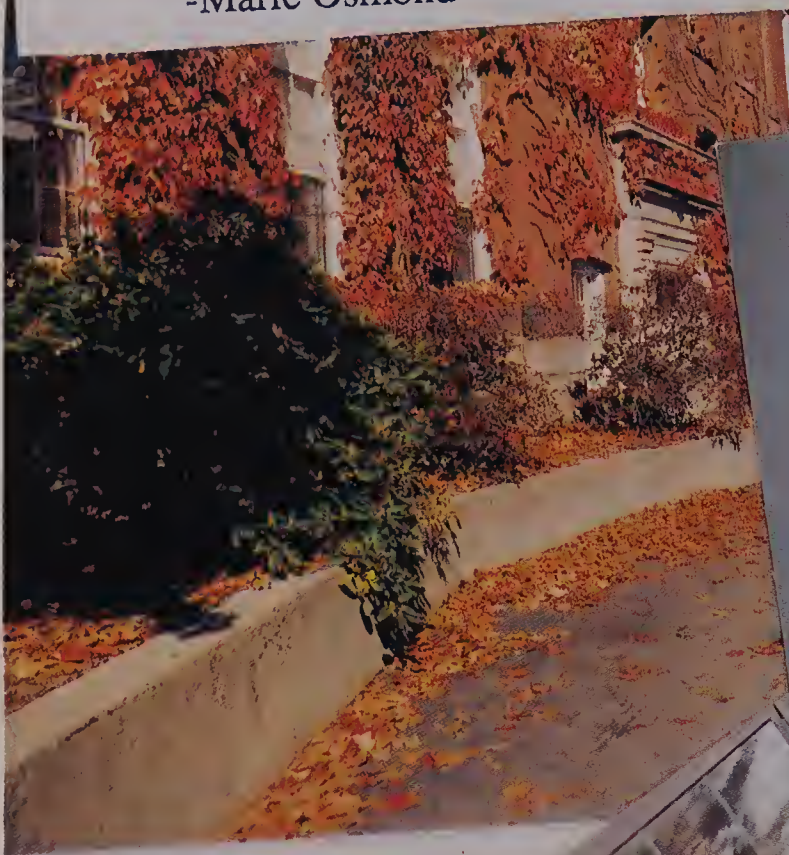

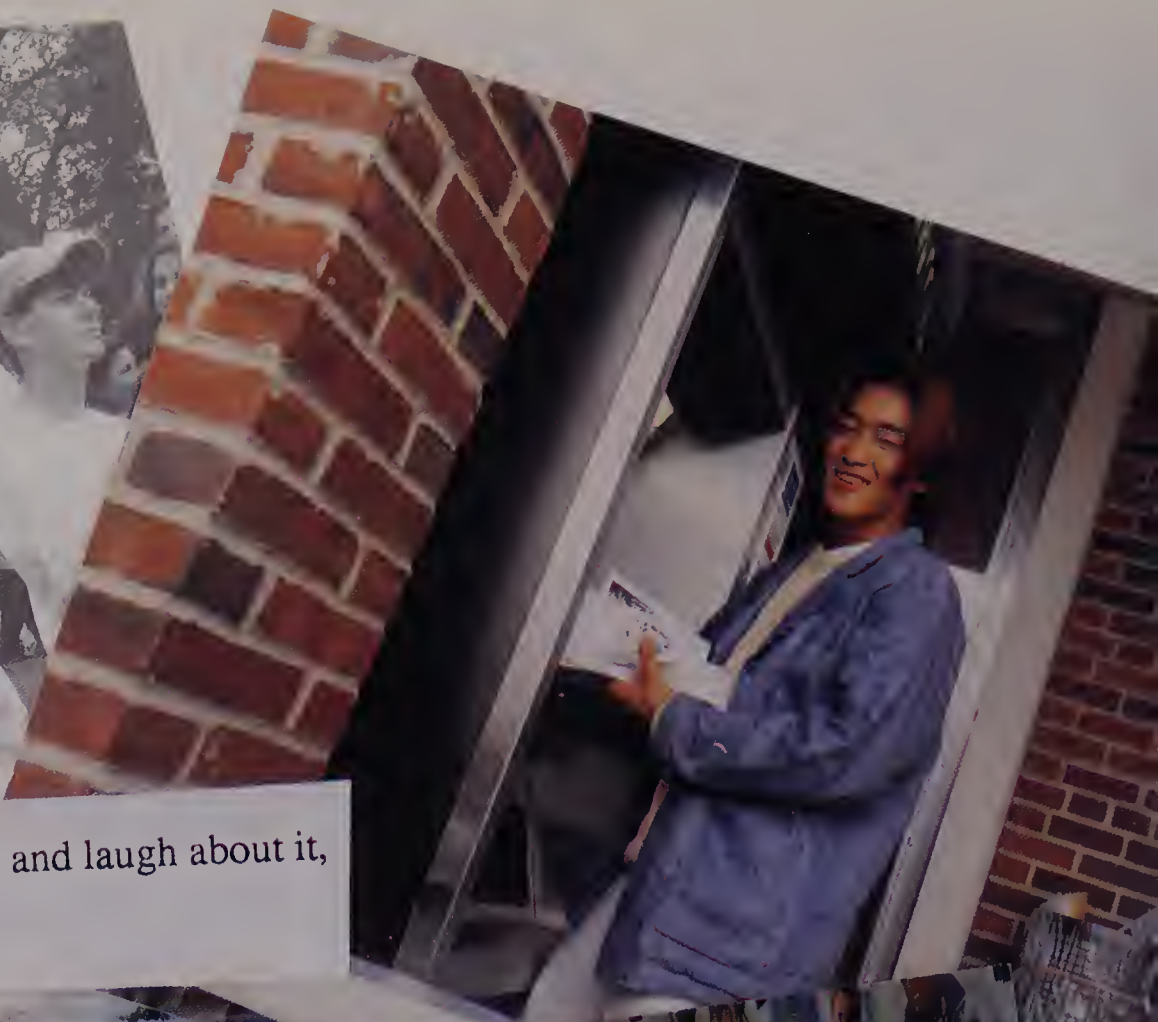

"What a strange thing is memory, and hope; one looks backward, the other forward. The one is of today, the other is the tomorrow. Memory is history recorded in our brain, memory is a painter, it paints pictures of the past and of the day."
-Grandma Moses

"If you're going to be able to look back on something and laugh about it, you might as well laugh about it now."

-Marie Osmond

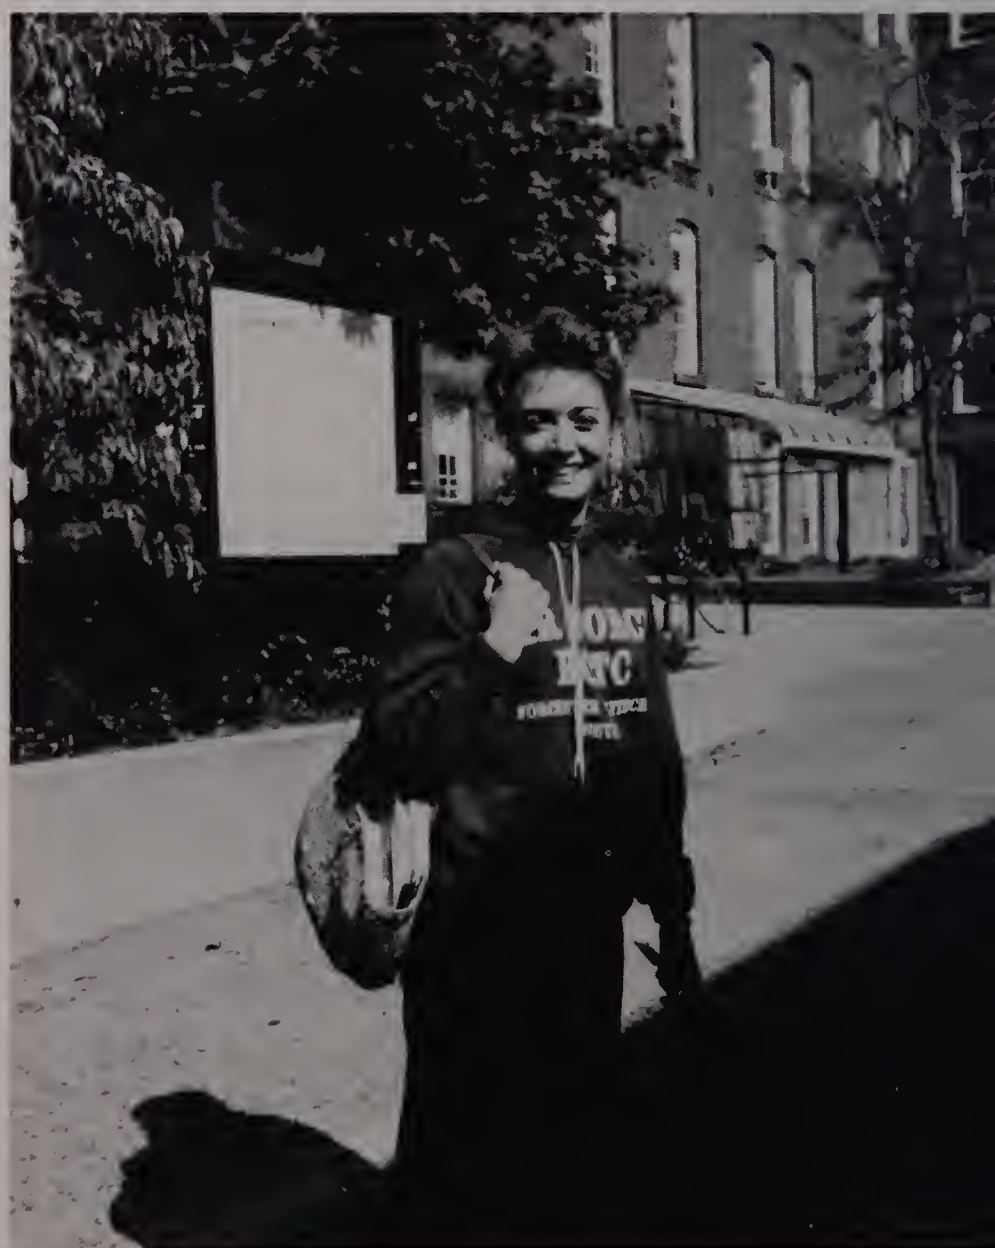

"The essence of any friendship is knowing;
what to support,
what to overlook,
what to forgive."

Student Life

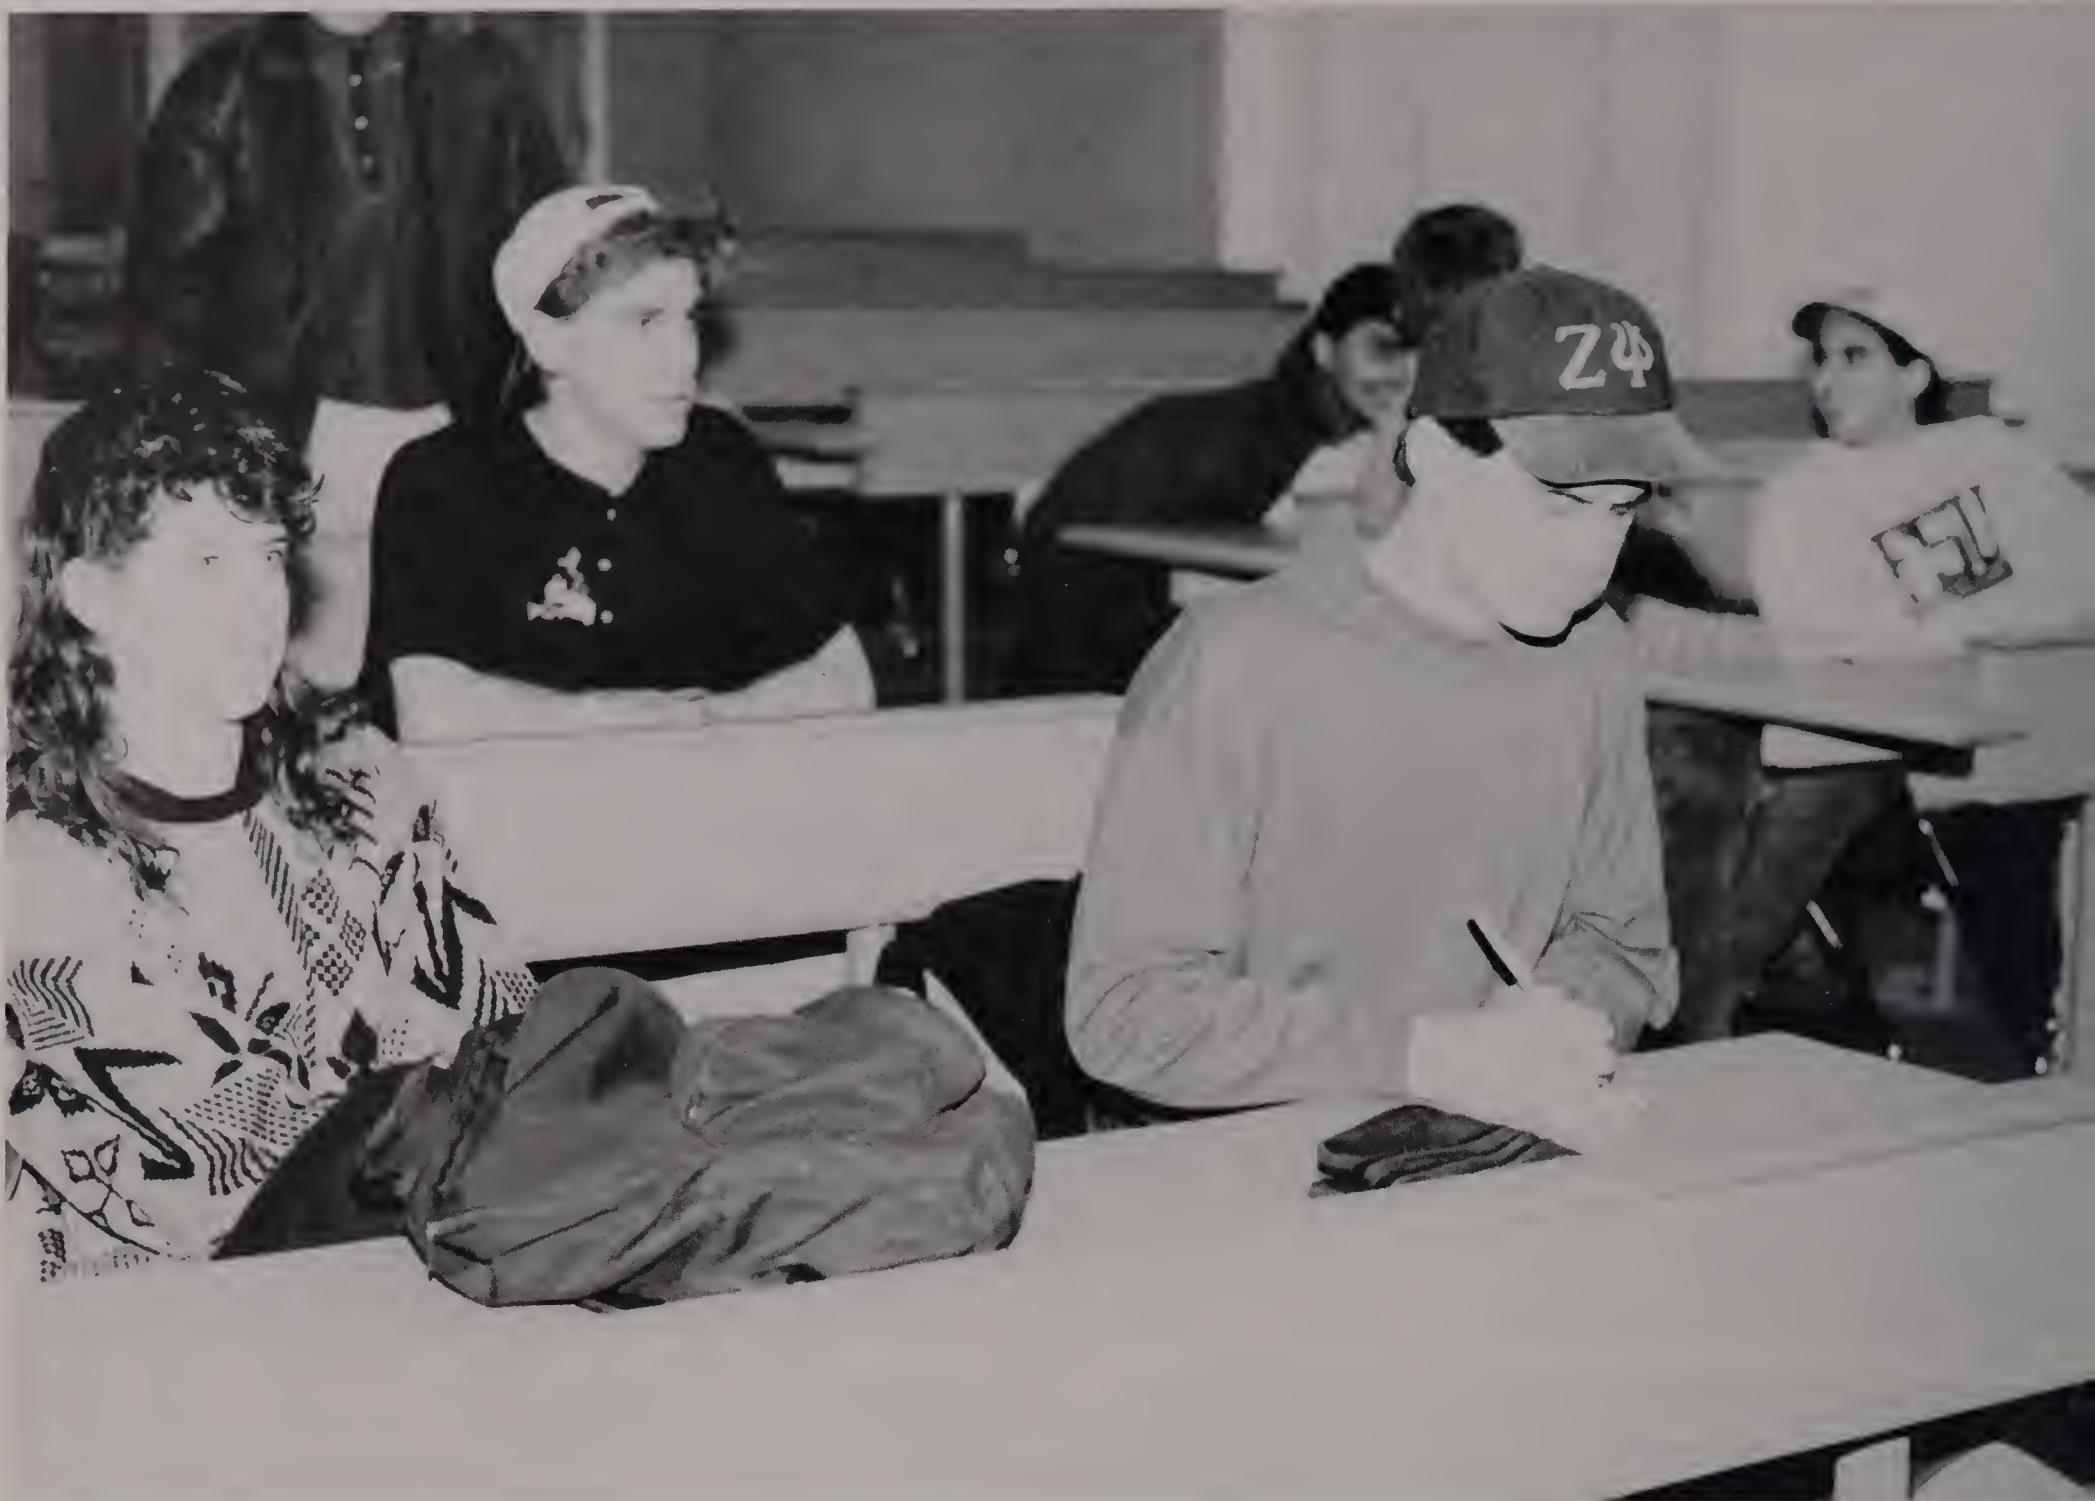

Classes, parties,
homework . . .
studying, laughing,
playing . . . WPI is
our world.

The Quest for Knowledge

In The Classroom

We all know that the real reason we are at Worcester Polytechnic Institute is not for the parties and the friendships, but to learn. We all are following our dream of receiving a college degree. The classroom experience is the most important part of life at WPI.

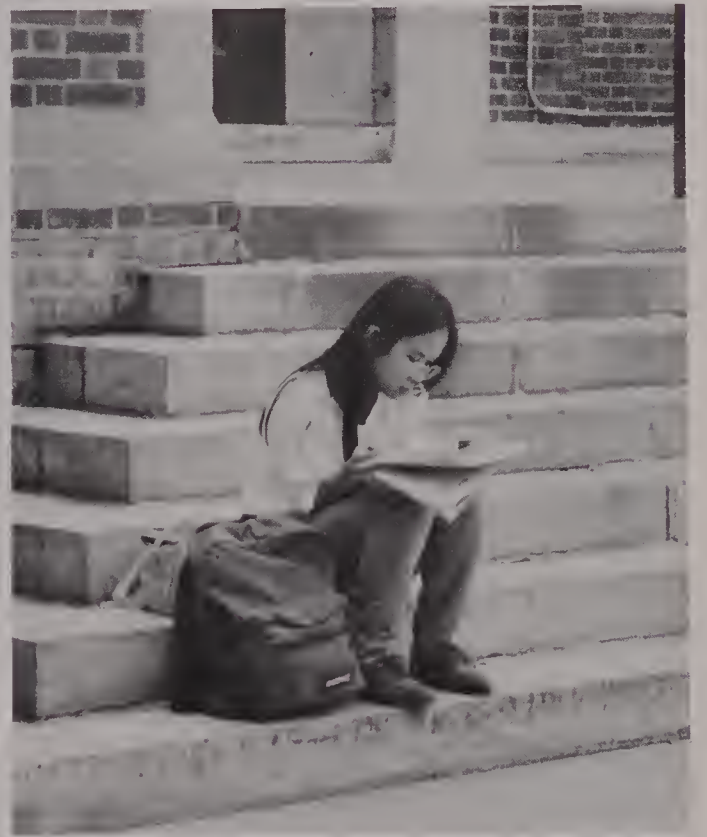

Even when we're not in the classroom, learning is our top priority; homework comes before parties. All too often we find ourselves spending the entire weekend working on the latest project we've been assigned, instead of going out with our friends like we planned. No matter where we are found, we are likely to have a textbook in hand and be on our way to do some studying.

Outside the Classroom

School is never ending for WPI students. Even when class is not in session we're still learning. Possibly because we love what we do or, more likely, because all our friends' are doing homework and there's no one to hang out with.

In the lab, on a field trip, at a museum and even playing games . . . WPI students are always challenging themselves to learn more.

Play Time

WPI students do need to take time off from school sometimes. It is not out of the ordinary to see students hanging out on the quad, down by Institue Pond or in Elm Park. In the Fall and Spring there is almost always a volleyball game or a frisbee game on the quad. Inside the two gyms students participate in many other sports including racquetball, ping-pong, bowling and basketball. When the snow comes there's snowboarders and sledders flying down the hill next to the library. Later in the day, many students stop at Gompei's or The Grille for a snack.

A Midsummer Night's Dream

The production of "A Midsummer Night's Dream" by Masque was a great hit with the whole student body. Produced by Noah Weisleder and directed by Susan Vick, the play took place in Alden Hall this November. Every aspect of the show; the entrance to the theater, the vendors, the music, the costumes, the lights and especially the actors helped to create a memorable and enjoyable evening for all theater-goers.

However, the play was not only a fun night out, it was also a work of art. The member's of Masque took Shakespeare's play to a new level. They created a whole new set of characters that allowed the play to become even more interactive, enabling the audience to actually become a part of the show they were watching. Although many people put lots of hours into this spectacular performance, the actors truly deserve most of the credit for their ability to turn the set into an entirely believable Shakespearan world. Congratulations on a wonderful production!

WPI's 13th President Departs

After more than nine years as the president of Worcester Polytechnic Institute Jon C. Strauss decided to take his leave this year to become the Chief Financial Officer of the Howard Hughes Medical Institute. In his departure letter printed in Newspeak, the Student Newspaper of WPI Strauss relates many of his contributions to the WPI community during his years here. These include: increasing both undergraduate and graduate enrollment; recruitment of 45% of the tenure track faculty; greater involvement of alumni in the life of their alma mater; increasing the cultural, gender, geographic and racial diversity of well qualified students; physical improvements to WPI, including the building of Fuller Information Sciences Laboratory, the renovation of Alden Memorial Hall, the fitness center, Institute Hall, Gompei's Place and Higgins Laboratory; improved national recognition, as seen in *US News and World Report* and other national rankings.

The search for a new president began immediately. In the interim John Lott Brown, a former Worcester Polytechnic Institute trustee was named president. M. Howard Jacobson, Chairman, Board of Trustees said "We are fortunate to have John Lott Brown serve during this transition. He is a distinguished scholar and teacher, a widely respected researcher, a recognized scientist and a skilled administrator."

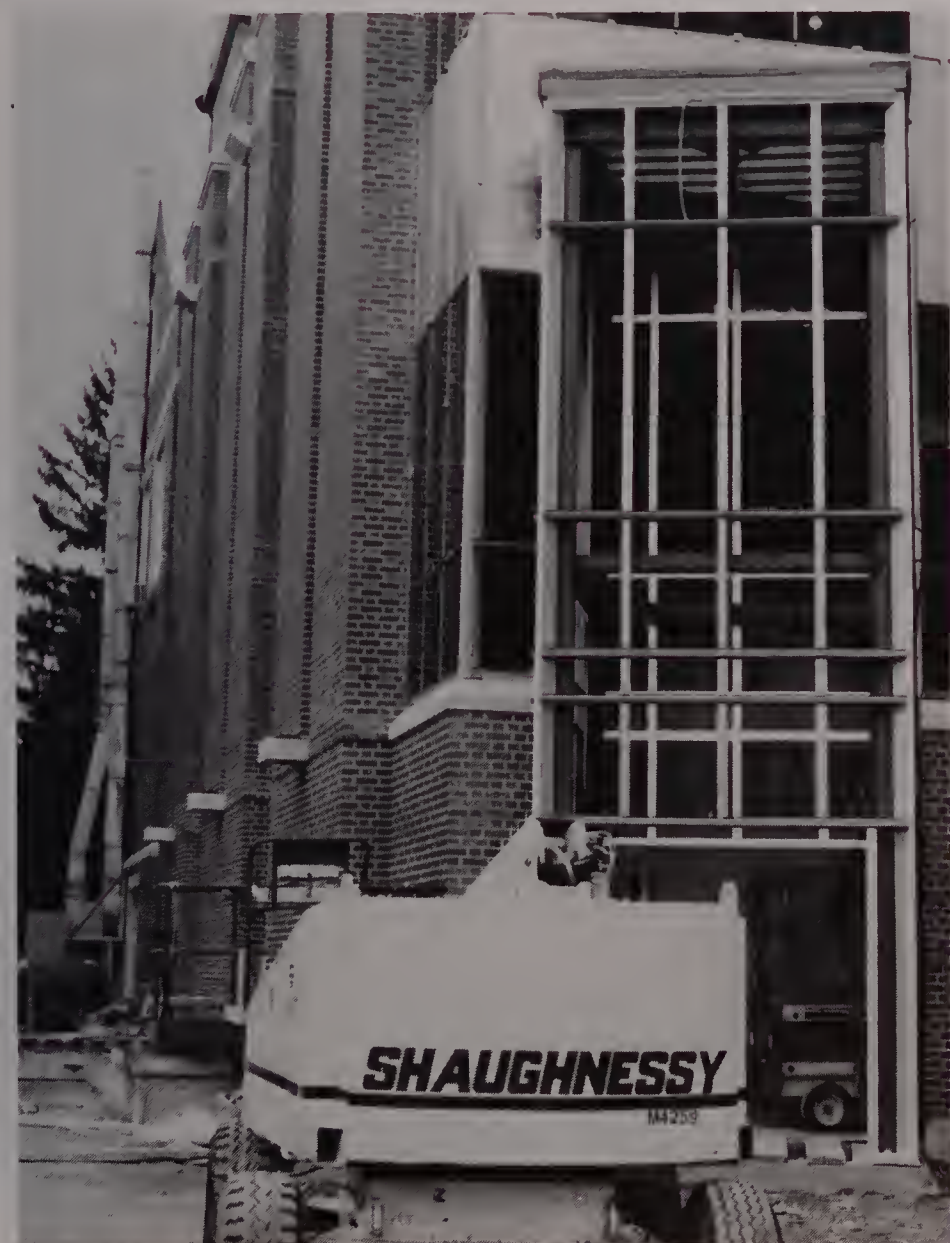

Ex-President Jon C. Strauss in his office at Worcester Polytechnic Institute.

Higgins Laboratories

The restoration and expansion of Higgins Laboratories has been fun to watch for everyone. The Mechanical Engineers, especially, are extremely excited now that the construction has ended. The new wing contains many new classrooms and labs. Of particular interest is the new wind tunnel and the new CAD lab, which, along with many other labs, has been moved, enlarged and refurnished.

1994, 1995 Construction

This past year has been full of constructions projects. Over the summer most of the campus was dug up as the new networking system was installed. All the residence hall rooms are now part of the WPI phone network. Students living in the resident halls don't notice any difference in their phone service, only largely decreased phone bills. Residents are also able to connect to the WPI computer system through an ethernet card, easing the amount of students trying to fit into the labs. An extra benefit of all the construction is that students now also have cable in their rooms. Goddard hall's veneliation system has also been renovated, along with Freeman Plaza.

Future Construction Plans

Worcester Polytechnic Institute has plans for more construction in the near future. The basement of Riley Hall, where Gompei's Function Room is presently located, is going to be gutted and turned into offices for many of the groups that are presently on the third floor of Boynton Hall. The Career Development Center and Worcester Polytechnic Institute's Publishing Center are just some of the groups being moved. Also in the plans for the future is the construction which will yield more parking and, of course, the Campus Center. Be sure to come back and see how everything how looks.

Homecoming

1994 Homecoming was great as usual. The weekend began with the Class of 1994's Zero Year Reunion in the Goat's Head Pub. This event was open to students, faculty and alumni of any year. It was a great evening full of discoveries. Everyone was able to finally find out what all their friends had been up to since graduation. The next morning, the day was kicked off with the Frank Sanella Road Race at 9:30. There was a great turnout for this marathon-style race. The Freshmen-Sophomore Rope Pull, another traditional event, took place in the afternoon.

The Quad

The Quad events started at 11:00, although many groups had started their tailgate parties earlier. The main attraction was the traditional Miniture Golf course, sponsored by the Student Alumni Association. Although there was no clear-cut winner, and all the holes showed great ingenuity, the Best Miniture Golf Hole award was bestowed upon the Morgan Hall Staff. To add to the excitement for the whole family clowns wandered the Quad painting faces and creating balloon art. Caricature paintings also took place and a magic show entertained everyone. Music was provided by the WPI Stage Band, The Baker's Dozen and the local bluegrass band, SloGrass.

The Athletics

The main event of the day was the WPI Engineers vs the Union College Dutchmen football game. WPI played a hard game, but was not able to convert the effort into a win. Also during Homecoming week: WPI field hockey beat Bridgewater. Women's volleyball won a terrific match against Brandeis University, before falling to Rhode Island later in the week. Men's soccer beat out Clark, Assumption and Worcester State as they hosted the first Worcester City Tournament. Women's tennis lost to Babson College. Men's golf fell to Nichols College.

Wintertime!

Worcester is famous for its snowstorms. It seems like every single year there's at least one storm that causes the whole city to stop. The roads are so snowy and icy that even if it were physically possible to dig out your car before it gets buried by the still falling snow you couldn't drive anywhere. The homework that you've been planning all week to do on that day suddenly doesn't need to be done for one more day, since you obviously couldn't get to the library or lab through all that snow. So there's nothing left to do except go sledding or cross country skiing. Even if you aren't a winter person, Worcester snowstorms give you the perfect excuse just to curl up inside and watch movies all day. This year was lacking in these beautiful natural scenes, but at least we had one weekend of pure fun and relaxation!

Formal Dances

Formals are part of every person's college experience. It's an evening full of fun and laughter enjoyed in a safe Worcester Polytechnic Institute environment. This year the "Love Sucks" dance was held in honor of Valentine's Day. Although the dance was not truly "formal", those students who decided to dress up made the event a night to remember.

The fraternities and sororities on campus also provide the WPI student body with formals that will be remembered for years to come.

Christmas formals are especially popular at WPI. For weeks everyone plans, and then the day of the formal we always seem to get the biggest snowstorm of the year. Memories of picking up your date in the blizzard-like weather and walking through snow in heels are ones we'll never forget. But this Christmas was different. The snowstorm never came! In our last year, the plans that had always been so careful made could finally be realized.

Winter Carnival

This year WPI students brought back an old tradition; The Winter Carnival. In all of history, such a comeback has never been seen. The Winter Carnival was a hit with all the students. To begin the festivities the Carnival Flame in the Center of the quad was lit. This remained alight throughout all the events to remind all participants of the fairness of all the activities and of the good-nature in which this carnival was taking place. There were activities for everyone. The ice-sculpting brought out many hidden talents. The turkey bowling gave everyone who generally couldn't bowl well due to the perfect roundness of the bowling ball a fair shot. Of course, the food was popular, as food always is with college students. After the day was done and everything was put away these new memories still remain and it's definite that the student body can look forward to the continuation of this tradition.

The sun set early, but not on Winter Carnival! Open Mic Night was just beginning...

Dorm Life

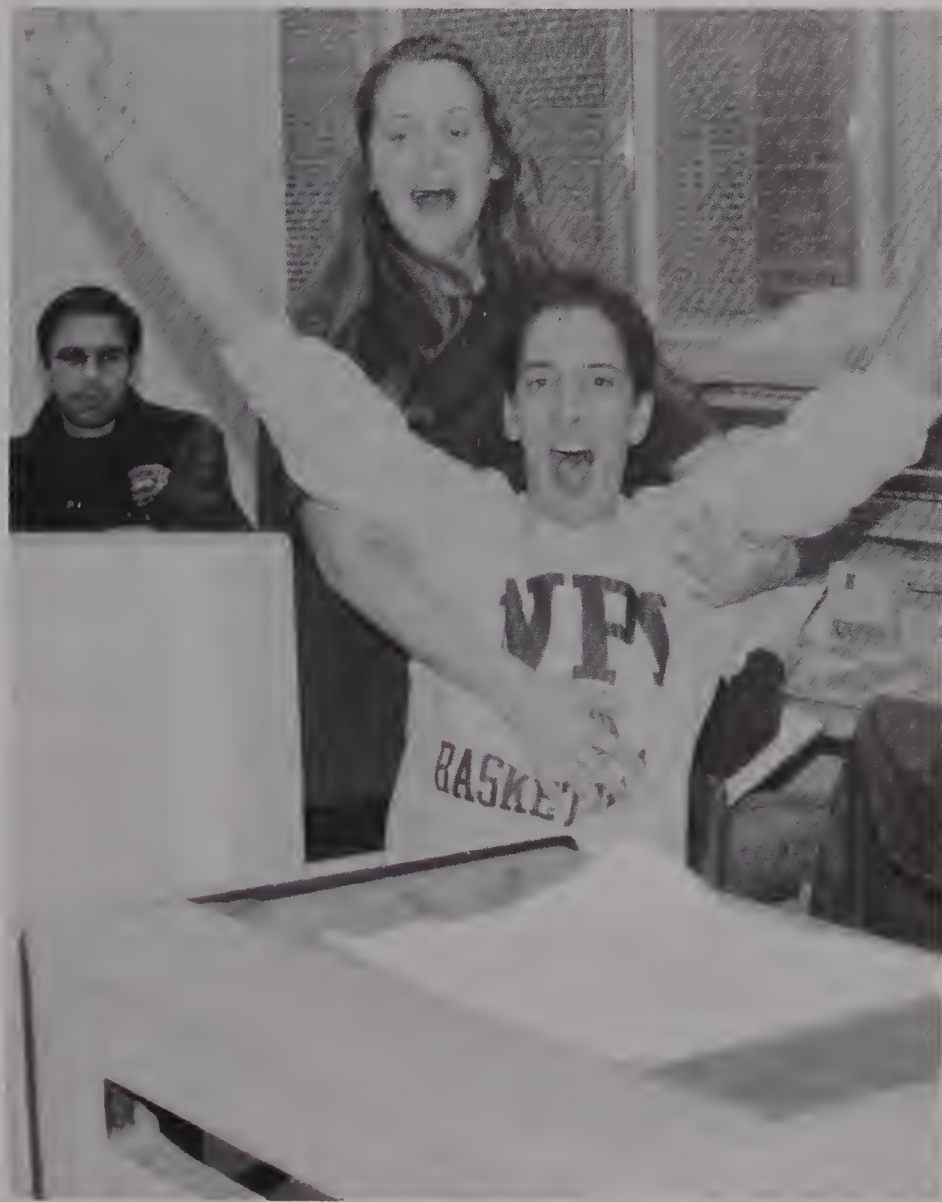

Almost every student has experienced living in a dorm. For many Worcester Polytechnic Institute students' the past four years have been spent in the dorms. However long you lived in a dorm, it's a life that you'll never forget.

WPI Life

There's so much more to student life at Worcester Polytechnic Institute than could possibly be brought to life in these pages. Here are some great shots of students at WPI just living.

Quadfest

This year the third annual Quadfest took place on Wednesday, April 26th, 1995. Quadfest has moved forward with leaps and bounds in the last two years. This year was obviously no different. Quadfest III: Toucan Jam was an all-out event. Everything started at 12:00pm on the Quad. There were too many things to do for everyone to even get a chance to try them all. Brought back from last year were Airball, Gyroscope, the pie-eating contest, and, of course, the free food. There were also many new events this year. Two of the most popular events were not found on the Quad, but inside Alden. Everyone had to try out the Virtual Reality game. Many students enjoyed creating their own music video with Fun Flicks. Due to the overwhelming number of people still waiting to try things out, both these events stayed open until about 6:00 even though they were supposed to close at 4:30. Other new events on the Quad included Sand Art, Temporary Tatoos, Caricatures, a live DJ and the Dunk Tank. There were also performances all day long by SOMA, Alden Voices, and Simple Harmonic Motion.

In the Evening

Quadfest didn't end at 4:30. This year the Quad stayed hopping until 11:00pm, although everyone did take a break for dinner from 4:30 until 7:00. In the evening there was a Luau which featured many new events. There was a Sand Castle competition and a Limbo contest. There was also more free food including Mocktails and a Fruit Fondue. And in order to bring together Toucan Jam there were also Toucan Pinatas to be smashed. All evening "Down East," a local band, provided music for everyone. Everything considered, Quadfest III proved to only be an improvement on past Quadfests. Quadfest IV has a lot to live up to!

Thomas O'Neil

Tom was a very special friend. He possessed a unique personality which entertained us all. He could bring a smile to your face without saying a word and yet, seemed to always know when words of reassurance were needed. He touched the hearts of so many people in numerous ways, and in these hearts his memory lives on.

Tom, you will be missed more than words could ever express. I just thank God for having the opportunity to have been your friend.

A calm, incredible sense stretches out over the simplest of hearts.

As the flame burns on, the memory, not of what's lost, but the notion of a brother who walks beside us, can never be taken away.

Wisdom Bound?

I look out on the field below,
And casually I dream.
I wish that life were pure as snow,
And tasty as sweet-cream.
I want to close my eyes and know
That things are as they seem.
But looking deeper always shows
That we are fools indeed.

At night I lay awake and think,
To try and clear my mind.
I walk my mind right to the brink,
And wonder what I'll find.
I'll spy my arm'r and find a chink-
And on myself resign:
I shall rejoice and i shall drink
To life while it is mine!

But as we stand upon our feet
We are on shaky ground.
Important things are more discreet
And harder are they found.
I do not think I'll ever meet
A knowledge true and sound
The wiser man admits defeat.
Am I for wisdom bound?

Sports

"Serious sport has nothing to do with fair play. It is bound up by hatred, jealousy, boastfulness, disregard of all rules and sadistic pleasure in witnessing violence; in other words it's a war minus the shooting"

-George Orwell

"For when the One Great Scorer comes to mark against your name
He writes - not that you won or lost - but how you played the game."
- Grantland Rice

"Statistics remind me of the
fellow who drowned in a river
whose average depth was
only three feet."

- Woody Hayes

"If you're lucky enough to find a guy with a lot of head and a lot of heart, he'll never come
off the field second."

-Vince Lombardi

Football

"A school without football is in danger of deteriorating into a medieval study hall."
-Vince Lombardi

Alpha Chi Rho

The Delta Sigma Phi chapter of Alpha Chi Rho has been at WPI since 1979. The national fraternity of Alpha Chi Rho is based on intrinsic worth, and no one is denied membership into our fraternity on the basis of race, creed, or nationality.

We have stood strong throughout the fifteen years on campus by staying involved on campus as well as off in the Worcester community. The Crows volunteer their time by helping Habitat for Humanity, Worcester Jay Cees, and by sponsoring Penny Wars, which raises funds to a charity selected by the winner.

The national fraternity will be celebrating its 100th anniversary this year. By staying on top of our academics, having fun, and maintaining our standards of excellence, the national fraternity will prosper for another hundred years.

Being a Phi Sig

It has something to do
with respect
Respecting yourself for all
the things you are --
just as you are.

Giving respect to sisters
comes before being respected
by sisters. Each of us
giving and taking;
working together instead of
against or apart

Respecting
what Phi Sig stands for,
And those -- across the nation,
active or alumnae -- who
stand for Phi Sigma Sigma.

Zeta Psi

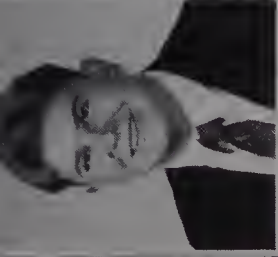

Why choose Zeta Psi? We, the brothers of the Pi Tau chapter of Zeta Psi, compose a brotherhood with diverse interests. While we take the college experience seriously we also know how to get away from the grind. We are very strong academically, athletically and socially. You'll see a Zeta everywhere on campus, whether it's in a student organization, an honor society, or a philanthropy event. Our chapter has won three Most Improved Chapter awards from WPI and our National within the past two years. In Zeta Psi, everyone has a voice. You're not "just another brother", lost among the crowd; you are important, and you can make a difference. Why choose Zeta Psi? Because Zeta Psi is a uniquely rewarding experience, one which words could not begin to describe.

Peddler Staff:

Thank you very much for all your hard work this year. The 1995 Peddler has really turned out to be something special. We met all our goals this year: to improve the continuity of our theme; to include more copy in the yearbook; and to put the book out on time. Your contribution was essential to producing this book.

To the underclassmen, thank you for sticking with it. This year was one of mostly sitting at tables and doing a few layouts. Next year you'll look back at those days and wish that was all you had to do! I look forward to working with all of you on The 1996 Peddler.

To the Seniors, thank you for the ideas and experience you brought to the 1995 Peddler. I know it was next to impossible to keep your commitment to the Peddler and still get your MQP done. You did an amazing job! Good luck to you in the future. I hope your experience working on the Peddler benefits you. Congratulations on your graduation.

Special thanks to:

Leigh Barry, our Photo Editor, for her constant work taking pictures in all seasons.

Laura Romanelli for her work on all the sections in this yearbook. Although Laura was not an editor, she worked more than anyone.

Sing Po Chan for his work as co-editor.

John Carrier for his help any time of the day with anything we might need.

Norm Benrimo for his photography talent and his lessons to our photographers.

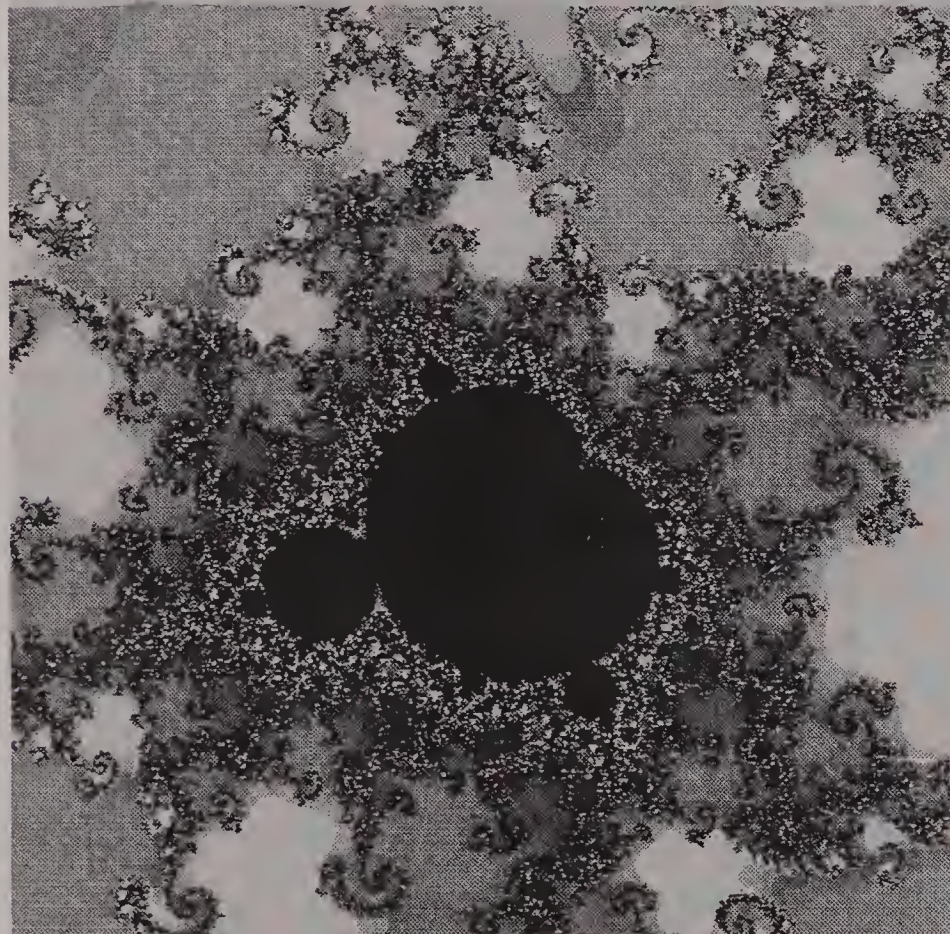

Sincerely,

Carla Caputo

COLOPHON

The **1995 PEDDLER**, of Worcester Polytechnic Institute, was printed in offset lithography by Herff Jones Yearbooks, Gettysburg, Pennsylvania 17325. The local representative is John Carrier and the customer service adviser was Barbara Merson. Additional advice and design assistance was provided by the company art department.

The press run for the **1995 PEDDLER** was 500 copies of 192 pages. Paper on pages 1-16 is Bordeaux 80lb. and pages 17-192 is Calais 80lb.

The cover was Custom Emboss on Vibratext Stonewashed material with mission grain. Applied colors were Dark Red #3 and Silver Foil. It was mounted on 160 point binder's board at the Herff Jones cover plant in Montgomery, Alabama 36108. The book was Smyth Sewn in sixteen pages signatures, trimmed to 9' by 12 inches, rounded and backed.

The endsheets were printed in HJ 194 Maroon, same design front and back on Crystalline stock.

In addition to the high carbon jet-black ink used throughout, there are 6 flats with Process Four-Color.

No portion of this book may be reproduced in any form without the written consent of the **PEDDLER** Yearbook staff. For further information, contact the **PEDDLER**, 100 Institute Road, Worcester, Massachusetts 01609.
